

PCI College Masters Child & Adolescent Counselling & Psychotherapeutic Skills 2024

PCI College
Excellence & Innovation in Psychological Education
Established 1991

This master's programme is for practitioners who wish to gain specialist training in psychotherapy for children, teenagers and young people under the age of 25.

About the Course

The programme sets out to build upon the knowledge and skills that you have developed through your undergraduate education and practical experience as a counsellor and psychotherapist. The programme acknowledges the requirement for all psychotherapists working with children and young people to complete a specialised academic and professional qualification to ensure the highest standards are met. Our programme is intended to align itself with European and international standards and promote continuous development and support for the therapist. The course meets the minimum competency standards for working with Under 18's as developed by the [Irish Association for Counselling and Psychotherapy \(IACP\)](#).

The MSc. Child & Adolescent Psychotherapy programme is a comprehensive professional training course, focused on working therapeutically with young people. The course is validated by Middlesex University* and is designed to supplement trainees' existing qualifications. It is not a stand-alone counselling qualification. Applicants include counsellors and psychotherapists who are accredited or are eligible for accreditation, with the IACP/IAHIP/BACP or equivalent, all of whom seek to deepen or extend their current skills to facilitate therapeutic work with young people up to the age of 25 years.
